

## **MTCC/CSC BUILDING EXPO TABLE AND DISPLAY SPECIFICATIONS 2020**

### **GENERAL:**

- Tradeshow representatives reserve the right to verify conformance to the requirements of Tables at any time. Should your display exceed the maximum dimensions/requirements indicated in the Table Requirements you will be requested to truncate it to the allowable height. If your display cannot be truncated, you will be told to remove it, in its entirety.

### **STANDARD TABLE REQUIREMENT:**

- General:
  - Each table will be provided with two chairs, alteration of the setup and layout of the tables and chairs is not permitted. Tables are 30" high by 30" wide by 96" long.
  - White table cloths will be provided on all tables. You are not permitted to remove the table cloth. You are permitted to add your own table cloth on top.
- Displays:
  - Maximum of 2 displays.
  - Restricted to a maximum height of 96" from the finish floor that is provided and with a total width of 96" long, spanning the length of the table.
- Power:
  - Electrical service is not provided nor permitted for table exhibitors.

### **PREMIUM TABLE REQUIREMENT:**

- General:
  - Each table will be provided with two chairs, alteration of the setup and layout of the tables and chairs is not permitted. Tables are 30" high by 30" wide by 96" long.
  - White table cloths will be provided on all tables. You are not permitted to remove the table cloth. You are permitted to add your own table cloth on top.
- Displays:
  - Restricted to a maximum height of 96" from the finish floor that is provided and 96" long, spanning the length of the table.
  - Exhibitors who have purchased more than one table are permitted to have displays that span the full length of the number of tables purchased.
  - Display can project a maximum of 30" from the face of the back-drop curtain. Total floor space is restricted to a maximum distance of 4'-6" from the face of the back-drop curtain.
  - Pre-manufactured display 4'-6" maximum (combined with table and exhibitors standing or sitting space)
- Power:
  - Electrical power is provided for low voltage, CSA/ULC approved items. Samples and demo items not CSA/ULC certified require special permits from the convention centre which must be completed in advance of the show date.
